GENERAL GUIDELINES  
FOR  
COMMITTEES OF THE UNIVERSITY SENATE

A. Election of Committee Members - With the exceptions noted below\*, all committee members elected by the University Senate will be elected and notified in April of each academic year. Students selected to serve on Senate committees will be selected and notified in April of each academic year. The committees will organize in May in order that each committee may be ready to function at the beginning of each academic year.

B. Terms of Committee Members - The term of membership of all committees is staggered to provide continuity to committees from year to year. Committee members are eligible for re-election, but not to consecutive terms.

C. Committee Support - Senate committees should have financial and centralized clerical support. The lack of such support leads to reduced effectiveness of committees and/or use of limited departmental resources. A minimal budget for each committee for operational expenses such as photocopying would make committees more productive and eliminate the inequitable drain on limited departmental resources.

D. Reporting To Senate - Each committee will provide a short, written and oral report of its activities once each year or as required. The method and date of reporting is part of the committee description. The date of reporting is also included on the list of committees.

E. Communications with Committees - The Senate chair promptly notifies members in writing of their selection and the duties of the committee. The chair of the Senate will designate the member responsible for calling the first meeting. Unless specified in the committee description, the committee will elect its chair.

F. Motivation of Faculty Participation in Committees - Participation by more faculty in committee work is encouraged. Committees are the means for the faculty to self-govern. Committees address matters of faculty concern and self interest. A robust committee system assists in advancing these. Committee work is expected of all faculty as part of their obligation to the University.

G. Voting Status of Committee Members - Unless otherwise stipulated in the description of each committee, all committee members are full voting members of the Committee.

H. Permanent or Ad Hoc Committee - Unless otherwise stipulated in the description of each committee, all committees are permanent committees of the Senate. When a committee is created, the Senate Executive Committee will prepare an entry containing the new committee's name, functions, responsibilities, status as a permanent or ad hoc committee, method and schedule for the determination of its membership, and the date by which it shall report to the Senate (see Appendix).

\*Exceptions:

1. Election to the Committee on Committees and Senate Executive Committee takes place at the October Senate meeting.
2. Membership on the Funding or Enrollment Emergency Committee is commensurate with the members' selection to the University Budget Committee or the Faculty Advisory Budget Committee.

3. Election to the Standing Committee on Faculty Rights is coincidental with and conducted in the same manner as the election of members of the Council to University Senate.
