*From Elizabeth J. Croy, Professor of Music, Montana State University-Bozeman:*

"I want to thank you for graciously accepting to conduct a master class with our students at Montana State University-Bozeman. It was revitalizing for me to watch you work with singers in such an inspiring and informative way. I appreciate your approach which allows singers to explore their own solutions without being judgmental. Your insight into the music and interpretive guidance was true to the score yet also sensitive to individual performers."

*From Noemi Lugo, DMA, Associate Professor, University of Kentucky:*

"Thank you in behalf of our Vocal Area for the wonderful recital and master class you presented here at the University of Kentucky School of Music last February. Our students are still talking about it and were extremely impressed by your ability to sing and accompany Mr. Verzosa. You are a very gifted musician and a singer of exquisite taste and artistry."
