

Engl 427: Diane Glancy
Alberts
Annotated Bibliography Assignment

DUE MARCH 12, 2009

Select one of Glancy's texts or one reoccurring theme (identity, geography, autobiography, language, Trail of Tears, etc.). Research/locate the sources that Glancy used to write the text. In addition, research secondary sources (criticism/theory) that relates to the selected text/theme. Once you have located these texts (using the MLA database, the Bibliography of Native North Americans, WorldCat, other databases that you might find useful, and lastly the Internet), read them, determine whether or not they are relevant/useful, and, if they are, summarize the main points in at least one paragraph and then write at least one paragraph explaining why it is relevant to Glancy scholarship.

Texts should be listed alphabetically and formatted according to MLA style.

You should find at least 10 reputable, authoritative sources.

Remember that your paper will be based on this research AND that this research will be incorporated into the Diane Glancy website.
