Announcements

Mark announced that those interested in meeting regarding the PSC funding initiative should contact him via email.

Business

Naomi shared potential fundraisers for the workshop with the group. The top 3 feasible fundraisers were having a book sale, doing some sort of profit sharing with a business (such as Gilly's), and contacting agencies for support.

Joanna also mentioned she had contacted a representative from the Bremer Foundation regarding writing a grant to receive money for the workshop. The foundation typically awards grants that focus on community service-oriented functions and are available on a case-by-case basis. After discussion, the group decided it would be worth investing the time to submit a grant. Joanna said she would send out an email with more information on the grant and those interested in helping should contact her.

Meeting adjourned.
