BUSINESS

Website

Discussion of how to go about setting up web space now that GRASP is a formal organization.

Discussion of who should be in charge of the web site, Committee or individual? No decision made.

Discussion of possibly volunteering to update the graduate web pages on the department's site.
Information is out of date

Sonia, volunteered to talk to Dr. Grabe about potential access to the site.

SAC Update

A draft of the honor code was distributed and the forum open to revisions. Several revisions were considered, another draft will be composed.

Fundraising

After discussion of what supplies would be most beneficial to all students, it was decided that a projector (for laptops) should be the first large ticket item purchased through GRASP funds.

GRASP currently has \$35 from the button sales.

The forum was opened to a discussion on what the goal should be for fundraising.

A total of \$1500 was set as this goal.

Ideas for fundraisers for the coming semester were proposed.

Sonia proposed a "Gambling day"

Further information such as who would be willing to attend, where to acquire the supplies, and a venue were discussed. No final decisions were made.

Faculty Applicants

Because graduate students get a partial vote in applicant hiring, it was discussed that all graduate students should make an attempt to meet the candidates and to hear their job talks. After this, student suggestions for who should or should not be considered for hire should e-mail either Holly Dannewitz or Carol Bennett so that they can base their votes on the consensus of the graduate student body.

The meeting was adjourned.
